

# Colorimeters

## Thermo Scientific™ Orion™ AQ3700 Colorimeter

Featuring tests for nitrogen, phosphate and COD

**This portable meter is the newest addition to the colorimetry line offering over 90 preprogrammed method options.**

- Multi-parameter colorimeter with six wavelength options and wavelength auto-selection by preprogrammed method
- IP67 waterproof with 1000 data-point memory and long battery life
- Numerous preprogrammed tests for powder, tablet and liquid reagent chemistries, reaction tubes, COD digestion tubes and acid digestion tubes, including nitrogen and phosphate nutrient testing
- User interface available in selectable languages of English, French, German, Indonesian, Italian, Polish, Portuguese and Spanish

Preprogrammed with many colorimetry reagents and digestion tests.

## Thermo Scientific™ Orion™ AQ4000 Colorimeter

Offers numerous preprogrammed tests for reagent chemistries

**Take the guesswork out of sample preparation and measurement with the Auto-Test ampoules and the exclusive Auto-ID feature.**

- Multi-parameter colorimeter with four wavelength options and wavelength auto-selection by preprogrammed method
- Portable and IP67 waterproof with 100 data-point memory and 2,500 hour average battery life
- Compatible with powder, tablet and liquid reagent chemistries, Auto-Test ampoules and COD digestion tubes
- Auto-Test ampoules contain pre-measured liquid reagents and automatically identify the species to be measured, select the wavelength and initiate the method on the meter
- Computer interface for data transfer using RS232 port

Easily create and store your own calibration curve for up to 10 new tests.
